

11. Training and Demo Mode

- Read this manual completely
- Watch the *Determinator* video
- Demo Mode

At a Service Center, using a computer, the *Determinator* can be placed into a demonstration mode to allow a driver to learn all aspects of the Determinator operation such as:

- how to provide a sample
- starting the vehicle
- rolling random retests
- courtesy restarts

In demo mode, the *Hand Held* displays the following message at turn-on.

* DEMO *

The *Determinator Hand Held* is shipped in Demo Mode to allow a new user to learn the unit's operation. In Demo Mode, the unit is fully functional, but all aspects of operation are sped up (to the point of being non-functional while driving). Typically, one minute is allowed to provide a sample or a rolling retest. In Demo Mode, the service due date will not elapse. A vehicle may not be started unless a proper sample is provided.

To exit Demo Mode,

Press:  until  is seen.

The unit then displays: 

Press:  to exit demo mode.

12. Determinator Menu

- Menu Button: YES Accept or change the currently displayed menu option. Also the “1” key.

YES
(1)
